FORWARD

This project started as a fund-raiser. I wanted to find a way for the homeless families on the streets of Sacramento to pull together enough funds to secure housing.

I watched a video of an older woman who was a part of the "Invisible People" Forum online. She and her daughter lived out of her car. She went to work from her car every day. This situation was a 7-year ordeal.

I began researching a viable route for someone who had no money and no way to create a home based business could escape the devastation of poverty.

Path to Financial Freedom

Martin Luther King stated the facts: There is nothing new about poverty. What is new is that we now have the techniques and the resources to get rid of povety. The real question is whether we will.

One of the more popular opportunities on line is **Live Good, which** advertised that a homeless member joined their program and lifted his income to the point that he got off the street.

I explored this option but quickly dismissed it because there were no immediate cash benefits for the member. Nexus Rewards Snap is a Business That Helps You Become Rich by Helping Your Neighbor
